## THIRTIETH ANNUAL REPORT

OF

### **The Dorchester Relief Society**

**Incorporated November 8, 1904**

---

The reports of the work done year after year by the Dorchester Relief Society must necessarily be very similar. This year we wish we might report as large an increase, proportionately, in our contributors and workers as the Dorchester District itself claims new citizens during the past year; a total of 125,000. Of this overwhelming number of citizens we find 125 persons on our list of subscribers, together with ten organizations. These figures speak for themselves and we again appeal to you for assistance in devising methods to reach the sympathies and purses of our disinterested neighbors. In one of our large churches a Social Service Committee has been organized, which informs itself of the existing charities in Dorchester and each month one of the charitable organizations is presented, its aims explained and its needs and progress reported. Although no direct appeal is made or contribution taken, it is surely a great step in advance. This church contributes more money and more workers to local charities than any church in the Dorchester District.

The vigilance of the Tuberculosis Society continues and the Dorchester Relief Society is an important source of supply and is constantly called upon for the nourishment needed for the cases who remain in their own homes, frequently covering long periods of time, and as usual, those going to Rutland Sanitarium are furnished with warm clothing and blankets. An old fur robe is much prized. Car-fares are provided for many who go back and forth daily from Mattapan Camp. The benefit of this essential part of the Society's work cannot be questioned when the Dorchester physicians state that the cases of tuberculosis have largely decreased in the past five years.

The funds necessary to continue the services of a nurse from the Instructive District Nursing Association were procured by great effort on the part of the treasurer. This effort has been greatly appreciated as the work of the nurse was never more needed among the poor than during the intense heat of the past summer, and her attendance at the clinics of the Dispensary has been most effective.

An undergraduate nurse has been sent frequently from the Asso-

ciation to give valuable aid, when the many calls exceeded the time and strength of the regular nurse.

The nurse with her assistant has made 2337 visits, responded to calls from fifty different physicians, and calls from the Mt. Sinai Hospital. Many families visited who were not able to employ a nurse but could pay a small fee gladly did so, money collected from such patients amounting to \$342.00; this again reassures us that this branch of the relief is not imposed upon.

Should there be any doubt as to the value of the services of a trained nurse in saving life, a conclusive proof of this has been demonstrated by the Insurance Companies during the past year, in Dorchester. These companies have engaged the services of a nurse from the Instructive District Nursing Association, to care for those whose lives are insured, when serious illness attacks them.

The Dispensary has been able to do more important work than last year owing to better equipment in surgical instruments and excellent new operating tables and various smaller appliances, made possible by friends who heard the urgent request made by one of the Dispensary Staff at our last Annual Meeting.

An increased number of social workers have volunteered their aid, in visiting the homes of applicants to the Dispensary. By this means the advice given is more closely followed and encouragement and sympathy have shown that these visits are of importance. There is much work along this line to be done and we earnestly hope to hear of others who will lend a hand.

The Dorchester Relief Society has been able to give aid and encouragement to 137 families, 85 of whom were recommended by the Associated Charities. The most satisfactory part of the work is caring for the old and neglected, to whom the City Alms House alone offers a refuge and is a much dreaded ending of an unfortunate life, especially to our native born citizens.

An elderly woman who died recently with heart trouble had been known to the Relief Society for many years. She with a grandson, a frail boy with tuberculosis tendency lived alone. With failing health the grandmother could do no work and the boy's earnings were very small, and they were much in need of aid of various kinds. A nurse was provided (before the days of the District Nurse) for several weeks at a time. A devoted visitor reported constantly what could be done for the comfort of both. Finally the illness became so distressing that the woman was removed to the New England Hospital where she was most tenderly cared for during the last weeks of her life. Meanwhile the grandson has grown stronger and has been able to earn more, and

to the surprise of all managed by the strictest economy during his grandmother's absence in the hospital, to save enough to defray her burial expenses, the arrangements for which were made by the agent and visitor.

The beneficiaries of this Society were again remembered by some of the Public Schools and two churches at Thanksgiving and Christmas. The supplies of vegetables, fruit and groceries, and of several complete dinners, were distributed among 94 families, and much genuine gratitude was expressed and much happiness given. The Wednesday Morning Sewing Club and the Nathaniel Hall Society of the First Parish, contributed gifts at Christmas for 42 children. It is not easy to estimate the pleasure given by those remembrances.

The Fortnightly Club of Dorchester has for many years contributed \$25.00 to be expended in coal to be given to American families; this very substantial gift was not omitted this year.

The Boston Elevated Railroad very kindly sent 200 car tickets, as it has done in many previous years. These tickets were distributed with discretion, and as ever gave much pleasure to those who took the rides.

During the past year the Society has lost one of its earliest and most active members and constant subscribers, in the death of Miss Mary E. Noyes, a life-long resident of Dorchester.

We gratefully acknowledge all donations of money, clothing and supplies, received from individuals, schools and organizations, and most earnestly appeal to those who are already interested, to extend among their neighbors and friends, the knowledge of the existence of the Dorchester Relief Society and its aims and needs.

All packages will be called for if a card is sent Miss H. E. Bruce, 204 Adams Street, Dorchester, stating the name and address of those wishing to contribute.

S. FRANK KING NASH, *Clerk.*

## OFFICERS, 1911-1912

of DORCHESTER RELIEF SOCIETY (Incorporated)

---

RICHARD C. HUMPHREYS, *President*,

## REPORT OF DORCHESTER DISPENSARY, 1910-1911.

---

The Dorchester Free Dispensary opened July 1, 1906, at the Gordon House now familiarly known as the Dorchester House. Within a few months from the start it was found necessary to have larger quarters which were found at 1436 Dorchester Avenue, Field's Corner. There it remained until October 1, 1910. At this time the Telephone Company required and secured our rooms and we were consequently obliged to make another change into our present location at 204 Adams Street. Through the kindness of interested friends, who have appreciated the value of this branch of Dorchester Relief work—our original meagre outfit of a table and two chairs has steadily become larger and better and now we have equipment necessary to meet almost any kind of an emergency that comes to us. Perhaps right here would be a good time to speak of what splendid help our trained nurse, Miss Murray, has given us this past year. We have found her to be a very capable, willing and kindly helper.

From October 1, 1910 to October 1, 1911, we have treated 1047 new patients, a decrease of ten from last year. There have been 51 operations—mostly adenoids and tonsils. Here is shown an increase

of 19 over the previous year. In ten months there have been 219 dressings. No record kept for two months. Treatment has been refused to nine applicants. That the number is so small tends to make us feel that the public are well educated to the fact that the Dispensary help is intended only for the needy. The fact that for the past eight months all new applicants have first to be investigated by Miss Bruce, agent for the Dorchester Relief Society, may have had a great deal to do in bringing this condition in the minds of the general public to pass, and it certainly goes without saying that it has been a great help to the physicians in charge.

For the work done this year \$36.10 have been collected and turned into the Relief Society treasury.

Of those examined 12 were found to have tuberculosis, and 15, by culture, were found to have contagious diseases, all of which cases were disposed of to city authorities having such diseases in charge.

Free prescriptions were given to 25 patients. The gifts of equipments for this year have included operating table, surgeon's table, chiffoniere with glass top, and linoleum floor covering, all of which have added a great deal to the finish of the room and work. This does not mean that there is not any more need of your gifts. As a matter of fact, there is an *immediate* need of some new instruments and always—the same in this as well as in all other *worthy* and *well directed* charities—the need of a more generous general support by the public.

For the Dispensary Staff,

WILLIAM C. EMERY, M.D.
